8.3 Direct Control District No. 3 DC (3) (See Map L16)

General Purpose

The general purpose of this district is to facilitate development that is in keeping with the direction set out in the Greater Downtown Action Plan for the Railyards neighbourhood. This vision includes medium to high density residential and mixed use residential/commercial land uses, residential development on the upper floors of ground floor commercial and an overall high-quality pedestrian environment.

This site encompassed by the DC (3) district is in a prominent location within the downtown and is highly visible given its location adjacent to both the Red Deer River and Gaetz Avenue. Any development within this site should reflect its elevated status as a major entry point into the downtown.

Site Area Minimum	900.0 m ²
Frontage Minimum	20.0 m
Residential Unit Minimum	37.0 m ² per dwelling unit

The following development standards shall apply:

(b) All development to be based on a common theme representative of heritage era buildings in downtown Red Deer. The following architectural guidelines must be incorporated into all buildings:

- (i)** high quality exterior building materials that utilize the use of stone work and/or other natural like finishes common to heritage era buildings, containing some stucco and limited use of metal finishes,
- (ii)** pedestrian oriented store fronts emphasizing special window and entrance treatments,
- (iii)** incorporation of cantilevers and canopies,
- (iv)** tasteful colour schemes,
- (v)** aesthetics of each building must be pleasing from all elevations and shall feature street oriented design elements including street level windows for all elevations visible from adjacent public roadways,
- (vi)** warehouse type buildings are not permitted,
- (vii)** no outdoor storage areas are permitted,
- (viii)** all waste containers must be enclosed, screened and/or be fully integrated into the overall building or site development,

¹ 3357/D-2021

- (ix) development must be complementary to the downtown and emphasize uses that would attract patrons, both during the day and evening,
- (x) development should strive to produce a seamless connection to the area south of 48th Street which will include a City park site,
- (xi) development should facilitate and encourage pedestrian movement within the site and to adjacent developments. Site to include sidewalks incorporating the use of paving stones and public area landscaping, lighting and street furniture,
- (xii) all signage, lighting and street furniture must complement the overall building theme,
- (xiii) landscaping:
 - (1) must be of high quality, incorporating mature plantings,
 - (2) perimeter of site must be landscaped including all adjoining road boulevard areas surrounding the site; in lieu of the boulevard landscaping required by the developer, the minimum onsite landscaping requirement is 10% of site area rather than the 15% of site area required on adjoining properties in the area,
 - (3) all perimeter and boulevard landscaping must be a continuation of the overall onsite landscaping plan,
 - (4) landscaping should be comprehensive throughout the development and appear seamless among the various components of the development,
 - (5) landscaping should be designed to screen parking areas and tie public areas to the commercial areas.

(c) Vehicle access to site:

- (i) all vehicle site access is restricted to either 52nd Avenue or 48th Street,
- (ii) vehicle access from 52nd Street is restricted to a common access point with, and adjoining, the existing McDonalds restaurant access,
- (iii) vehicle access from 48th Street will be restricted to one common access point located approximately midway between 52nd Avenue and Taylor Drive.

- (d) Prospective developers of the site are encouraged to be innovative in their site design. They should examine opportunities for such features as landscaped covered parking which could maximize the use of the site, use of decorative and/or unique fencing, feature walls, flags, banners, sculptures, and extensive use of hard and soft landscaping.

3. Site Development

¹All aspects of development in this Direct Control District including land use, development standards, site plan, site access, the relationship between buildings, structures and open space, the architectural treatment of buildings, the provision and architecture of landscaped areas, and the parking layout shall be subject to approval by the Development Authority. Land uses may be developed either as sole uses or in various combinations in a single building or on a single site.

4. ²Approving Authority

- (a) City Council is the approving authority for any new Principal Building on the Site. In exercising its approval powers, the approving authority shall take into consideration the Greater Downtown Action Plan.
- (b) The Development Authority is the approving authority for all Permitted and Discretionary Uses and signage within/on existing buildings on the Site. In exercising its approval powers, the approving authority shall take into consideration the Greater Downtown Action Plan.

(b) Where each half of a semi-detached dwelling unit is to be contained in a separate site no side yard shall be required on the side of the dwelling unit which abuts the adjacent dwelling unit.

(c) Where the dwelling units of a multi-attached building are to be contained in separate sites, no side yards shall be required on either side in the case of an internal dwelling unit and no side yard shall be required on one side of the end dwelling unit.

3. Live-Work Unit Regulations

(a) Where a Live-Work Unit is approved, it is subject to the following regulation, which may not be modified by the Development Authority:

- i. A Live-Work Unit may not result in a disturbance to the peace and quiet or other amenities of the neighbourhood, nor may it cause the emission of dust, noise, odour, smoke, electronic interference, bright lights or other nuisance.
- ii. Outside storage or display of any kind shall not be permitted.

(b) Where a Live-Work Unit is approved, it is subject to the following regulations, except as varied by the Development Authority:

- iii. the work portion of a Live-Work Unit may not exceed 50% of the gross floor area of the unit;

iv. when listed as a use, the following uses may be incorporated into a Live-Work Unit:

- (a) artist’s studio;
- (b) beauty and body service;
- (c) counseling service;
- (d) office;
- (e) repair or sales of apparel, crafts, and jewelry that are made on the premises; and
- (f) other similar business uses approved by the Development Authority

(c) A Live-Work Unit must provide parking as required under sections 3.1 and 3.2 of the Land Use Bylaw. The Development Authority may increase the number of parking stalls required for a Live-Work Unit where deemed necessary for the work component of the unit.

(d) The number, size, location, and design of signage for a Live-Work Unit is subject to approval by the Development Authority.

4. Site Development

(a) The site plan and the relationship between buildings, structures, and open space the architectural treatment of buildings, the provision and architecture of landscaped open space and the parking layout shall be subject to approval by the Development Authority.

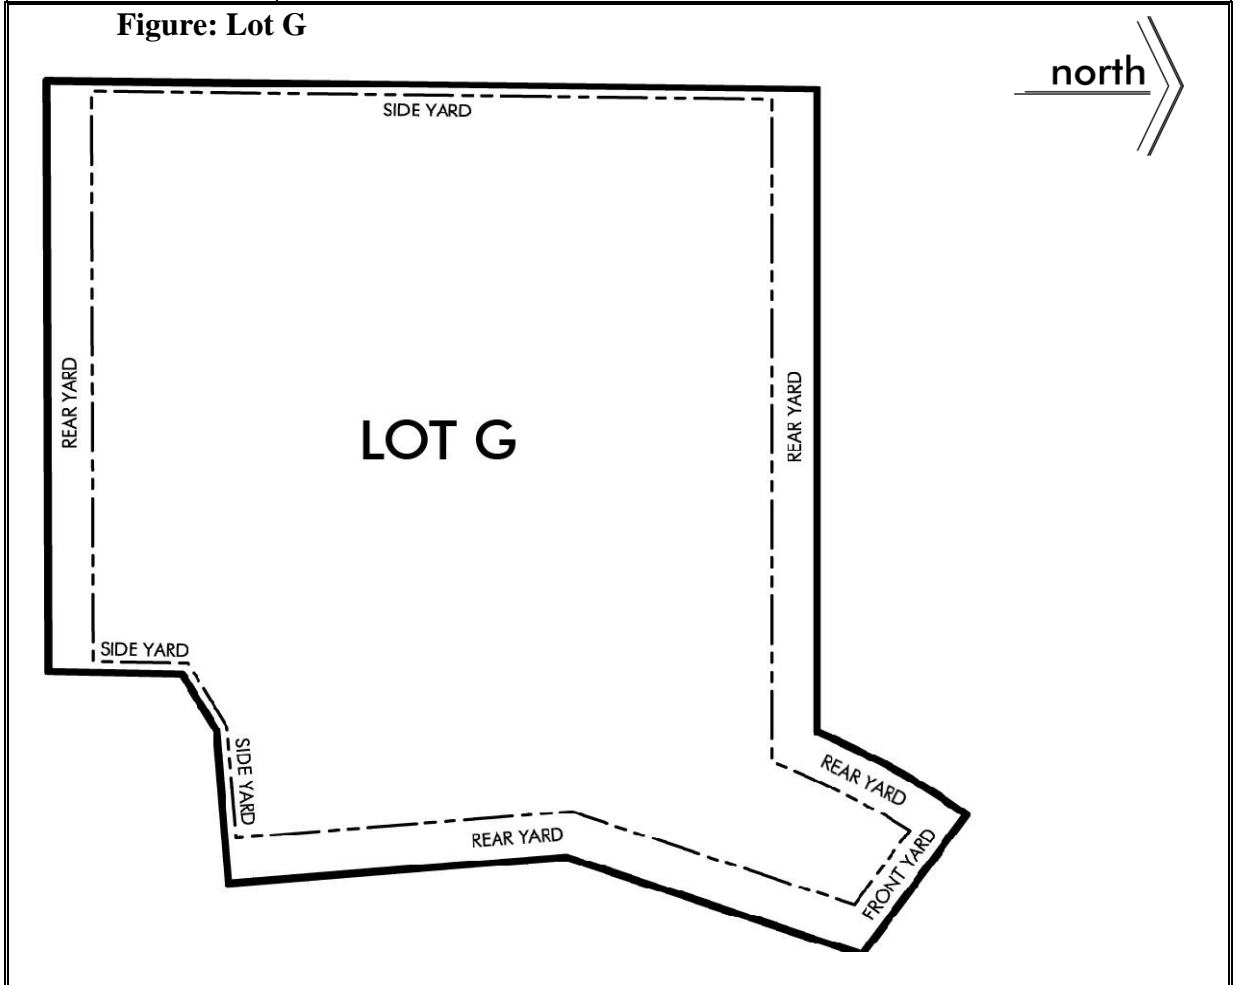

(b) Notwithstanding the minimum lot area requirements within the DC (25) Residential General Regulations, when an area has a density designation in accordance with the DC (25) Permitted and Discretionary Uses table, the minimum lot area is subject to approval of the Development Authority.

¹8.20.6 Direct Control District No. 26 DC (26) (See Map K16)

General Purpose

The general purpose of this District is to permit redevelopment of the Valley Park Manor Site located at Lot B, Block 9, Plan 1919RS which satisfies the objectives of the *Riverside Meadows Area Redevelopment Plan*. Redevelopment of the site would be for compatible uses that are designed in accordance with the Riverside Meadows Overlay District to ensure quality and careful integration with the existing residential context of the neighbourhood and adjacent school site.

18.20.7 Direct Control District No. 27 Neighbourhood Centre DC (27) (See Map P17)

2General Purpose

This district shall apply only to the Clearview North Neighbourhood Centre site (the Site). Its purpose is to allow for and encourage a variety of commercial, limited office, residential, civic, cultural and recreational uses that primarily serve the local neighbourhoods. These uses shall be distributed throughout a comprehensively designed development area that emphasizes sustainability and compact pedestrian-friendly urban development. The regulations shall apply to both Phase 1 and 2 of the area depicted on the Figure 1 of this district, unless otherwise specified in the regulations.

2. ⁶Approving Authority

The approving authority for applications for development approval in this district shall be as follows:

- (a) The Development Authority in the case of all applications, except as described in subsection (b) below;
- (b) City Council in the case of:
 - (i) Development of a new building exceeding 50,000 square feet (4,645 m²); or
 - (ii) Any application requiring a variance of the Site Plan and Design Package greater than 10 percent;

Approving Authority Variances

- (c) The Development Authority may permit variances from the Site Plan and Design Package regarding individual building footprints, overall landscaping, and overall parking where the Development Authority deems the proposed changes to be less than 10 percent of what is shown in the Site Plan and Design Package, and the proposed development complies with the General Purpose and Uses of this District, and would not, in the Development Authority's opinion, unduly impact the surrounding area.

- (d) Where the Development Authority deems that a proposed variance from the Site Plan and Design Package is greater than 10 percent, City Council shall be the Approving Authority.

3. Concept Design

- (a) All development within this district shall comply with:
 - (i) the Site Plan and Design Package approved by Council, which shall comply with the provisions of this district and which shall describe in details the following aspects of development:
 - (A) buildings;
 - (B) landscaping;
 - (C) architecture;
 - (D) public spaces;
 - (E) parking;
 - (F) pathways and roadways; and
 - (G) signage;
 - (ii) the Key Elements listed in subsection (6) below; and
 - (iii) the Neighbourhood Centre Concept Design set out in the following sketch;

4. General Design Guidelines

- (a) The site plan, the relationship between buildings, structures and open space, the architectural treatment of buildings, the provision and architecture of landscaped open space, and the parking layout, and all other development standards shall be subject to approval by the approving authority, which may impose, as a condition of approval of any development, such standards as are reasonably necessary to ensure that the development will create the character of the envisioned Neighbourhood Centre district and will achieve the following objectives:
- (i) be consistent with the East Hill Major Area Structure Plan and the corresponding Neighbourhood Area Structure Plans within the mixed use area;

- (ii) be consistent with the East Hill Town Centre Design Guidelines;
- (iii) be consistent with the parking requirements of the Land Use Bylaw;
- (iv) reflect the objective of capturing a blend of office, higher density residential and commercial in a pedestrian friendly environment;
- (v) where the development is adjacent to private/public sidewalks, have a design of front, side and rear façade which are of comparable architectural treatment;
- (vi) be consistent with the following building height regulations:

Storeys	Requirements
Minimum	2 storeys or 6.5 m (or such other lower minimum height which may be established by City Council for buildings under 7,500 square feet)
Maximum	8 storeys or 38.5 m (except where adjacent to single family buildings in which case the maximum shall be 4 storeys or 19.2 m)
Greater than 4 Storeys	In the case of buildings adjacent to a public or private sidewalk or park, the façade of the fifth storey and above shall be stepped back a minimum of 1 metre from the lower storeys, in order to maintain a human scale.
Equal to 4 Storeys	Buildings that are four storeys tall shall treat the third and fourth storeys with materials and colours which are different, from but complementary with, the first and second storeys;
Less than 4 Storeys	N/A

- (b) Each of the Key Elements in the Neighbourhood Centre Concept Design has been assigned a priority from 1 (highest)-to 6 (lowest). In instances where the suggested characteristics of one or more elements contradict each other, priority shall be given to the element with the highest priority.

(c) **Key Elements**

The following are the Key Elements of the Neighbourhood Centre Concept Design:

(i) **Hard Surface Public Spaces: Priority 1**

Purpose and Location:

A place for social interaction such as: gathering, public entertainment, displays, markets, or similar activities. At minimum, these spaces shall be placed wherever the main *Pedestrian Promenade* intersects with one or more pathways. In general, wherever multiple pathways intersect a public space shall be considered. There must be at least two hard surface public spaces:

- (1) One that acts as a gateway in the general vicinity of the southwest corner of the Site.
- (2) One that is located at the point (a relatively central location) where the *Regional Trail Pathway* intersects with the *Pedestrian Promenade*.

Components and Programming:

These spaces should include permanent or dynamic public art exhibitions, water fountains, monuments, or any human scale physical component adding a unique character to the space. Street furniture such as benches and tables may be added as permanent features to the space, but the temporary addition of such features is possible.

Design and Relationship with Adjacent Buildings:

These spaces shall be defined by adjacent buildings, essentially creating an “outdoor room”, where the building “*façades*” act as walls. Adjacent building facades shall address the space via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. The ground surface of these spaces shall primarily be made of hard materials such as stone, brick or concrete. Plants/ vegetation may be used intermittently throughout the space to add character and to soften the environment. Trees may be incorporated into the space in order to provide shelter from the elements throughout the year.

Linkages:

These spaces shall be clearly connected, physically and/ or visually, to other public spaces and residential uses via at least two of the following linkages: ***the pedestrian promenade the regional trail pathway, local pedestrian pathways or vehicular pedestrian pathways.***

If one of the aforementioned “pathways” terminates in a public space, the visual “*terminus*” shall be treated with a “significant physical element” creating a

“*vista*”. Examples of these “significant physical element” are: an architecturally significant building or building feature, a monument, sculpture, etc. If there is a significant natural element at the *terminus*, then that natural feature may be used as the significant physical element.

(ii) Pedestrian Promenade: Priority 2

Purpose and Location:

Draws people into the Site, and connects the local off Site and on Site residential population with local amenities, business and activities. The corridor also acts as the “spine” of the neighbourhood town centre from which the rest of the neighbourhood town centre and greater community can be accessed. The pedestrian Promenade shall be anchored at the southwest corner of the Site by a Hard Surface Public space and runs through the centre of the Site eventually being anchored in the north / northeast of the Site.

Design and Relationship with Adjacent Buildings:

Adjacent building facades address the space via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. The ground surface of this space is primarily made of hard materials such as stone, brick, concrete or creatively treated asphalt. Plants/ landscaping may be used intermittently throughout the space to add character and to soften the environment. Trees line the corridor providing shelter from the elements throughout the year.

Components and Programming:

This space may include features such as; permanent or dynamic public art exhibitions, water fountains, monuments, or any human scale physical component adding a unique character to the space.

Places to sit shall be frequently provided via street furniture and/ or landscaping. Where any other major pathway intersects this space, information shall be provided directing people to amenities, businesses and activities. This information can be provided via: signage, kiosks, small vendors etc.

This space may also be used as a place for social interaction providing a space for activities such as; recreation, gathering, public entertainment, displays, markets and similar activities.

(iii) Regional Trail Pathway: Priority 3

Purpose and Location:

A continuation of the existing regional trail system. The Regional Trail Pathway, shall be anchored by two small welcoming spaces, and shall connect the existing trail system to the future development to the east. These spaces shall be landmarks that draw people in to the Site. Each of the anchor spaces shall be at relatively opposite ends of the Site, with one being located in the general vicinity of the northwest corner.

Components and Programming:

Vegetation is used continuously throughout the pathway clearly distinguishing the pathway as the “regional green path system”. This vegetation may include but is not limited to: Trees, shrubs and grass. Places to sit are intermittently provided via street furniture and/ or landscaping. Where any other major pathway intersects this space, information is provided directing people to amenities, businesses and activities. This information can be provided via: signage, kiosks, small vendors etc.

Design and Relationship with Adjacent Buildings:

Where possible, adjacent building facades should address the pathway via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. Plants/ vegetation may be used intermittently throughout the space to add character and to soften the environment.

(iv) Open Green Spaces: Priority 4

Purpose and Location:

To be used as an alternative to a hard surface public space, these spaces shall be places to enjoy a more “natural” setting. Physical elements may include existing natural features or constructed features. In general wherever multiple pathways intersect there is potential for a open green space or any form of public space.

Design and Relationship with Adjacent Buildings:

These spaces shall be adjacent to buildings that address the space via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. Adjacent buildings shall at minimum overlook the spaces through windows providing a perceived surveillance of the spaces.

Components and Programming:

Places to sit shall be sporadically provided via street furniture and/ or landscaping. The landscaping should at minimum contain some aspects of the local natural environment or be entirely native to Red Deer/ Alberta. These spaces may include features such as; permanent or dynamic public art exhibitions, water fountains, monuments, or any human scale physical component adding a unique character to the space.

These spaces may also be used as a place for social interaction providing a space for activities such as; recreation, gathering, public entertainment, displays, markets, etc.

(v) Vehicular Pathways: Priority 5

Purpose and Location:

Vehicular pathways shall provide non-curvilinear direct two-way access for motorized vehicles, to the *neighbourhood centre* amenities, activities, businesses, transit stops and parking. There shall be a minimum of 1 access point on the west edge of the Site and 1 at the south edge of the Site to the satisfaction of Engineering Services.

Components:

When possible street parking should be provided. Where any major pathway intersects with the vehicular pathway, pedestrians are given priority via crosswalks. These *pathways* may also consist of pedestrian oriented sidewalks separated from the vehicle path by boulevards. These boulevards shall contain some or all of the following physical elements: Lighting fixtures, trees, signage, or similar elements. Sidewalks and boulevards are at minimum on 1 side of the right of way at all points.

Design and Relationship with Adjacent Buildings:

Where possible, adjacent building facades should address the right of way via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. Plants/ vegetation may be used intermittently throughout the space to add character and to soften the environment.

(vi) Local Pedestrian Pathways: Priority 6

Purpose and Location:

Shall provide direct access for pedestrians to the *neighbourhood town centre* amenities, public spaces, activities, businesses and parking areas.

Components and Programming:

These pathways shall be defined throughout the neighbourhood town centre via consistent ground material treatment, lighting, signage and when possible boulevards containing trees.

Design and Relationship with Adjacent Buildings:

Where possible, adjacent building facades should address the pathway via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements. Plants/ vegetation may be used intermittently throughout the space to add character and to soften the environment.

General Land Use

(vii) Primarily Residential Area

Purpose and Location:

This general area shall consist of residential uses. Commercial uses shall be considered on the ground floor in this area.

Interface and Relationship with Adjacent Uses:

When a building in this area is adjacent to a public space, or a pathway, the fronting walls/ surface shall address the space/ pathway via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements.

(viii)¹Primarily Retail Commercial

Purpose and Location:

This general area shall consist of commercial uses. Office uses serving the local area are encouraged throughout this area. Residential uses should be considered above the ground floor. Cannabis Retail Sales are not permitted.

Design and Relationship with Adjacent Uses:

When a building in this area is adjacent to a public space, or a pathway, the fronting walls/ surface shall address the space/ pathway via some or all of the following elements: entrances/ doorways, windows, patios, or clearly defined and architecturally interesting corridors leading to any of the aforementioned elements.

18.20.8 Direct Control District No. 28 DC (28) (See Map L15, L16, M14, and M15)

DC (28)

General Purpose

As directed in the Greater Downtown Action Plan, the general purpose of this area will be to facilitate the development of a distinctive urban neighbourhood with a high-quality pedestrian environment: medium to high density residential and mixed use residential/commercial land uses; and residential development on the upper floors of ground floor commercial along the 53rd Avenue pedestrian spine. Generally, the land uses are to serve The City and the region, as a whole. This district has been created as an interim measure to guide development in the Railyards neighbourhood while awaiting the preparation of an Area Redevelopment Plan for the area.

3. Amenity Areas

- (a) The minimum front and side yard setbacks for sites within this district may be reduced or eliminated by the Development Authority, if the Development Authority determines, based on the merit of each individual development, that encroachment into the setback area is identified for pedestrian enhancements that meet the following criteria:
- (i) Development within the setback area is non-structural.
 - (ii) Space for pedestrian amenities such as walkways, sidewalks, bicycle routes, green spaces and landscaping, urban sculptures and benches or other street furniture.
 - (iii) Development with special design elements featuring unique building entrances and/or facades, non-structural columns, canopies, porches and balconies, special lighting, or street oriented signage.
 - (iv) Development that takes into account the unique character of an area.
 - (v) Development that creates a visually interesting and compatible relationship with the street and adjoining buildings, and provides a continuous pedestrian streetscape or pedestrian/public amenity such as an outdoor café, courtyard or garden.

4. Approving Authority

¹City Council is the Approving Authority for the Temporary Care Facility located at 5239-53 Avenue (Lots 4-5, Plan 623RS)

- (a) ²City Council is the Approving Authority for Supervised Consumption Services and the Institutional Service Facility located at Lot 14 Block 4 Plan 8420286.

¹ 3357/P-2023

- (b) ¹The Development Authority is the Approving Authority for all other uses and development in this district. In exercising its approval powers, the Development Authority shall ensure that development conforms to the general intent of the Great Downtown Action Plan.

5. Site Development

- (a) All development standards, site plan, site access, the relationship between buildings, structures and open space, the architectural treatment of any building, the provision and architecture of landscaped areas, and the parking layout shall be subject to approval by the Approving Authority.

6. General Design Purpose

- (a) The Approving Authority may impose, as a condition of approval of any development or redevelopment, such standards as are reasonably necessary to ensure that the development will create the character envisioned for the Railyards neighbourhood in the Greater Downtown Action Plan, and achieve the following objectives:
- (i) Encourage medium to high density residential and mixed use residential/ commercial land uses.
 - (ii) Promote residential developments on the upper floors of ground floor commercial along 53rd Avenue.
 - (iii) Promote the enhancement of 53rd Avenue as a “complete street” with sidewalks, a dedicated bike lane, street furniture, and high quality landscaping.

7. ²Development Regulations applicable to Supervised Consumption Services and Institutional Service Facility located at Lot 14 Block 4 Plan 8420286

- (a) The licensed processes and functions of the use shall be fully enclosed within the Building and Accessory Buildings;
- (b) The licensed processes and functions shall not be visible from a public street;
- (c) A Supervised Consumption Services use must have a monitored internal and external digital camera security system and personnel to perform regular surveillance during all hours of operation;
- (d) Limit of one Building Sign indicating service and hours of operation;
- (e) A Supervised Consumption Services use must have effective pedestrian flow in and out of parcel;
- (f) A Supervised Consumption Services use shall not be located within 150 m of a playground or Day Care Facility;

¹ 3357/RR-2018

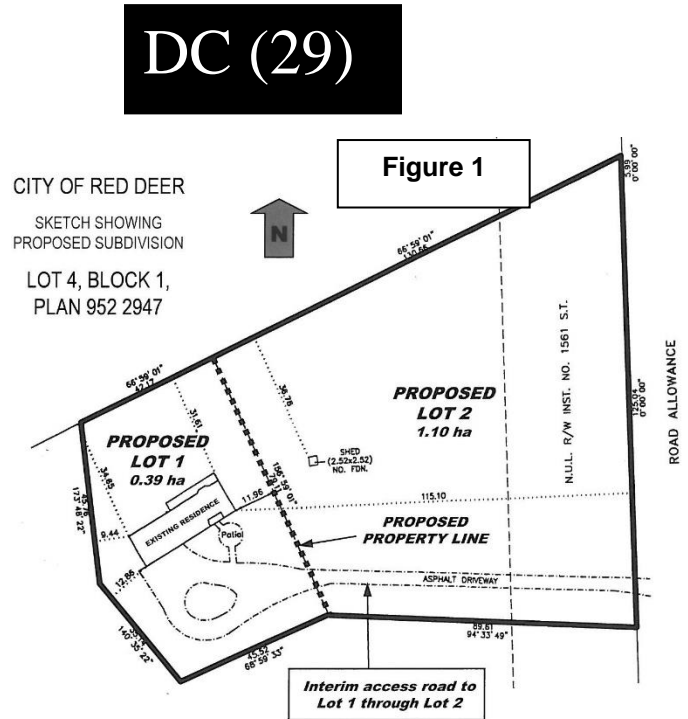

² 3357/RR-2018

- (g) A Supervised Consumption Services use shall obtain and maintain any relevant provincial and or federal approvals;
- (h) A Supervised Consumption Services use must comply with the design elements that incorporate CPTED principles as a result of a CPTED analysis incorporating natural surveillance, access control and territorial reinforcements.
- (i) Windows shall be tinted or treated to block view of internal operations;
- (j) Additional landscaping must be required to screen operations.
- (k) The site plan, the relationship between buildings, structures and open space, the architectural treatment of buildings, the provision and architecture of landscaped open space, and the parking layout shall be subject to approval by City Council.

18.20.9 Direct Control District No. 29 (DC 29) (See Map P21)

General Purpose

The general purpose of this District is to facilitate the subdivision of an existing 1.49 ha acreage parcel legally described as Lot 4, Block 1, Plan 952 2947 located in the NE 34-38-27-W4 into two separate lots as shown in Figure 1. This District allows proposed Lot 1 to contain the existing residence on the site and proposed Lot 2 to be reserved as a future development parcel to be developed in accordance with a landowner prepared and Council approved neighbourhood area structure plan for the area.

¹8.20.10 Direct Control District No. 30 DC (30) (See Maps I16 & J16)

DC (30)

General Purpose

The purpose of this District is to provide for development associated with the Red Deer Golf and Country Club within identified areas in a manner that is compatible with adjacent residential neighbourhoods and Waskasoo Park.

1. DC 30 Permitted Uses Table

(a) Permitted Uses
(i) Golf course within the areas identified on Figure 1
(ii) Accessory buildings and uses directly related to the golf course within the areas identified on Figure 1

2. Development Standards

- (a)** All development standards including, but not limited to, site plans, site accesses, the relationship between buildings, structures and open space, the architectural treatment of any building, the provision and architecture of landscaped areas, outdoor lighting, buffering / screening (sightlines and/or noise) and parking layout shall be subject to approval by the Development Authority.
- (b)** No vegetation is to be removed from the 10.0 m buffer strip as identified in Figure 1.
- (c)** Outside the 10.0 m buffer strip, healthy trees, as determined by the City, may only be moved or removed in conjunction with an approved development permit.

3. Approving Authority

- (a)** ²The Development Authority is the approving authority for all uses and Development in this District.

For the purposes of this Direct Control District the following definitions shall apply:

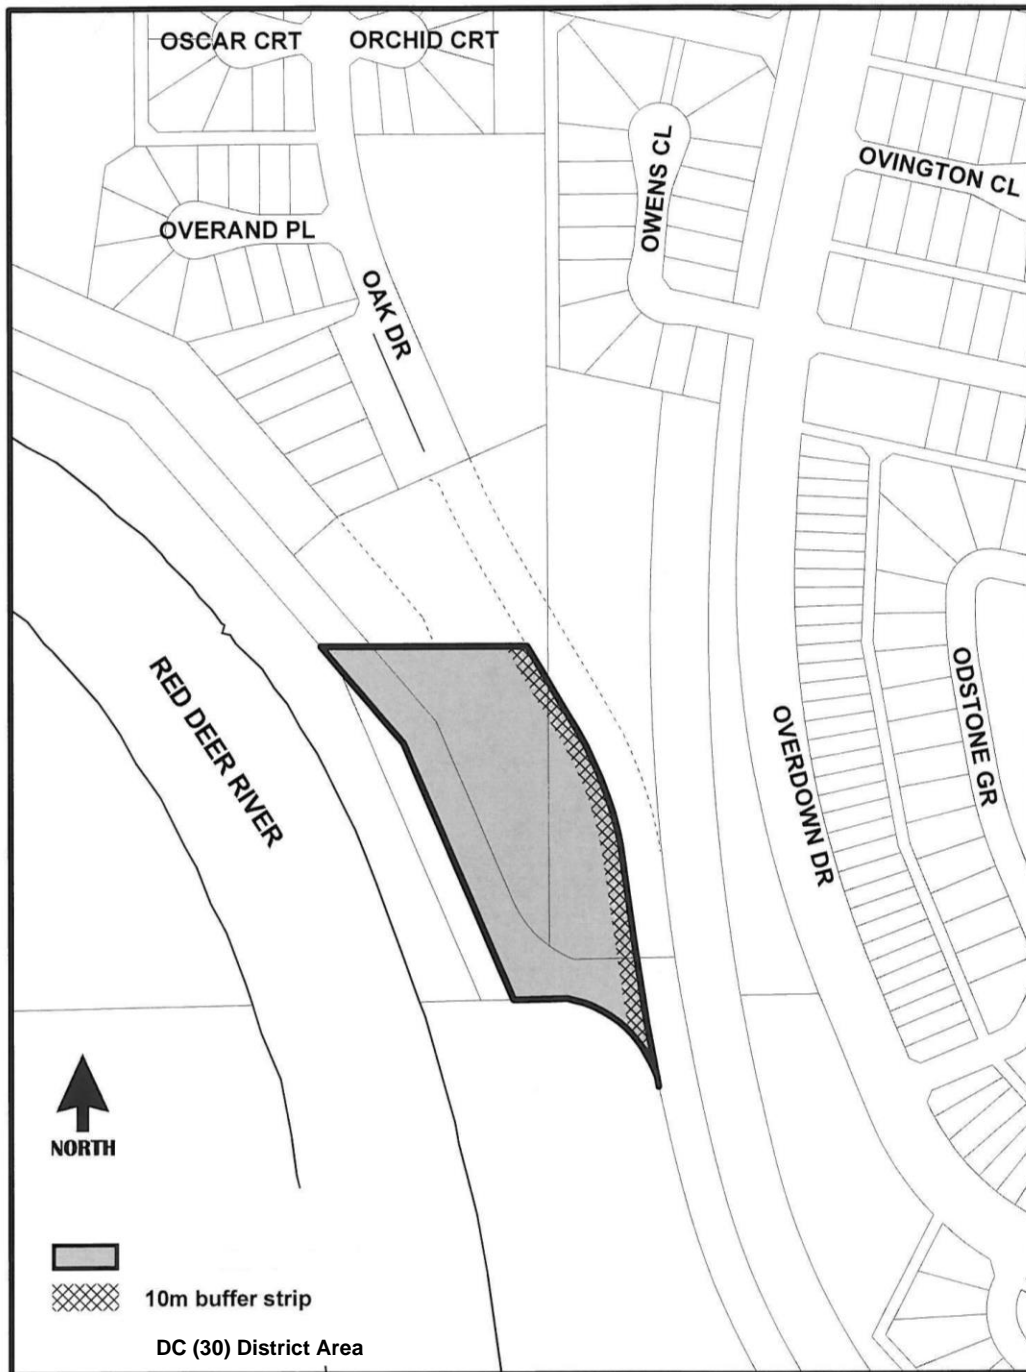

Golf course means an outdoor area developed for the playing of golf including such things as tee boxes, fairways, greens and related landscaping.

¹ 3357/X-2010

² 3357/D-2021

Accessory buildings and uses directly related to the golf course means structures and activities associated with the playing of golf and may include such things as driving ranges, putting/chipping areas, maintenance facilities, parking areas, a clubhouse, a golf pro-shop, restaurants within the clubhouse serving golf course members / patrons, and offices and meeting rooms for use by golf course staff, members / patrons for golf related activities.

Figure 1: DC (30) District Area and 10 m Buffer Area

18.20.11 Direct Control District No. 31 DC (31) (See Map M13)

General Purpose

To allow for the integrated redevelopment of a school facility adjacent to a public park and the escarpment area. It is recognized that the school and the park will each benefit from their proximity to the other, and that the uses can be seamlessly integrated within the District. The site has been purposely designed to be compatible with adjacent land uses while preserving and protecting the park spaces and the environmentally sensitive land in escarpment area.

Future amenities proposed in the Kin Canyon Concept Plan are compatible with the natural characteristics of the site encompassed by DC (31). The District protects environmentally sensitive land in the escarpment area by restricting development to minimal and environmentally compatible uses.

Area of Application

This DC(31) provision shall apply to Lot R Plan 1621NY and Block 5 and Plan 3935HW, located at the corner of 49th Avenue and 35th Street, as shown on Map 13 of this Bylaw.

2. ⁵Approving Authority

- (a) City Council is the approving authority for any new Principal Buildings on the Site. In exercising its approval powers, the approving authority shall ensure that Development is compatible with the adjacent land uses and that efforts are taken to preserve and protect park space within the District.
- (b) The Development Authority is the approving authority for all Permitted and Discretionary Uses and signage within/on existing buildings on the Site. In exercising its approval powers, the approving authority shall ensure that Development is compatible with the adjacent land uses and that efforts are taken to preserve and protect park space within the District.

3. Development Regulations

Within this District, the general provisions of the Land Use Bylaw apply unless these specific provisions for the District provide otherwise.

4. At 4716 34 Street on Lot R Plan 1621NY the following special provisions and regulations apply:

- (a) ⁶Trees shall not be cut, felled or removed without prior approval of City Council.

- (c) No aggregate extraction will be allowed.
- (d) Where possible, parking facilities shall be shared with parking required for the school in order to reduce the impact to park space.

5. At 4810 35 Street on Block 5 and Plan 3935HW the following special provisions and regulations apply:

¹

Front Yard Minimum	Subject to the approving authority
Side Yard Minimum	Subject to the approving authority
Rear Yard Minimum	Subject to the approving authority
Landscaped Area	Subject to the approving authority
Parking Spaces	In accordance with Sections 3.1 and 3.2
Loading	Subject to approving authority

6. Site Development

- (a) ²Within the DC(31) District the site plan, the relationship between buildings, structures and open space, the architectural treatment of buildings, the provision and architecture of landscaped open space, and the parking layout shall be subject to approval by the approving authority.
- (b) ³The Development Authority may permit alterations to the plans approved by Council, where the proposed changes are deemed by the Development Authority to be minor in scale or are changes that will result in an equal or greater standard of development than what was approved by City Council.

¹8.20.12 Direct Control District No. 32 DC (32) Westlake Restricted Development District

DC (32)

A. Area of Application

The following bylaw provisions being “Direct Control District 32 (DC32) – Westlake Restricted Development” shall apply to the area as shown in Figure 1 of this Bylaw.

B. Direct Control District 32 (DC32) – Westlake Restricted Development District

1. Purpose

- (a) To identify and mitigate the significant environmental hazards or risks affecting the Westlake lands, formerly known as Riverview Park. Various Reports have been completed for Westlake and the adjacent Red Deer River escarpment or slopes (e.g. the 2003, 2012, 2014, and 2017 studies by ParklandGeo) and have identified the following relevant and significant hazards or risks:
- (i) river erosion of the toe-of-slope or escarpment;
 - (ii) planes of weakness in the subsoil or bedrock;
 - (iii) slope erosion, landslides and slumping;
 - (iv) the lower slope of the escarpment is considered “marginally stable”;
 - (v) the upper slope of the escarpment is considered “unstable” and subject to natural regression – the present slope will regress even with the stabilized toe-of-slope;
 - (vi) destabilizing and variable natural springs below the Crest of the escarpment;
 - (vii) various other natural and man – made risks associated with soil instability and slope destabilization (e.g. environmental changes, variable river flow and flooding, swimming pools, removal of vegetation, over watering, overloading, excavation, vegetation changes, variable ground water conditions, etc.); and
 - (viii) that complex subsurface and surface conditions, affect Westlake, and can sometimes not be fully understood even using commonly accepted practices for professional technical assessment.
- (b) To establish a Restricted Development Area as identified in Figure 1 and to restrict Development to areas of relatively lower expected risk, pursuant to the recommendations of the March 2014 “Geotechnical Investigation, Riverview

¹ 3357/O-2014, 3357/F-2018

Park Development Setback” and the subsequent February 2017 “Geotechnical Assessment – 2017 Riverview Park Slope Review” (prepared by ParklandGeo).

- (c) To provide special land use criteria and supporting regulation reflective of existing Reports and directed to minimizing the risk of damage or loss to natural and private property and/or persons as well as public lands and infrastructure.

2. Definitions

In this District:

“Crest” means the break between the slope face and the generally flat area located above the escarpment. A technical assessment may be required to determine the location of the crest of an active slope.

“Report” means a professional technical assessment and can include, but is not limited, a professional geotechnical assessment;

“Restricted Development Area” or “RDA” means the area shown as hatched on the attached Figure 1 and the Land Use Constraints maps. The Restricted Development Area as shown is an approximation only. The site-specific position of the Restricted Development Area relative to the Crest of the escarpment will be identified upon application of subdivision or Development Permit as required by the Subdivision or Development Authority.

“Subdivision or Development Authority” means the Municipal Planning Commission in its capacity as either the Subdivision or Development Authority, or the Development Officer as provided for in section 6 of this district; and

“Water Retaining Structure” means a swimming pool, hot tub, pond or other structure designed to retain liquid above or below the ground surface.

3. Fundamental Land Use Criteria

The following fundamental land use criteria shall apply to all lands, uses and Developments within this District, except as expressly stated to be otherwise within Section 5 of this District:

- (a) development (including but not limited to, buildings, structures, construction, major renovations, excavation, placement of fill, ground disturbance, tree or shrub removal, stripping and grading) is prohibited within the Restricted Development Area;
- (b) where a site-specific professional geotechnical assessment or other Report acceptable to the Subdivision or Development Authority has recommended a greater Development setback than the Restricted Development Area, the greater Development setback shall apply;
- (c) Deleted (Bylaw 3357/F-2018);

- (d) the Subdivision or Development Authority shall not approve any subdivision or Development unless, having considered all relevant Reports, in their opinion:
 - (i) approval will not detrimentally impact the overall groundwater regime or slope geometry;
 - (ii) public and private property will be reasonable safe from the hazards of slope and soil instability as identified through a Report, and
 - (iii) the lands at issue are suitable for the proposal considering:
 - (A) all relevant Reports;
 - (B) the full range of uses and Developments existing or contemplated respecting the subdivision or Development permit application and the adjacent lands;
 - (C) cumulative impacts to soil and slope stability; and
 - (D) emergency access and planning.
- (e) the following developments shall not be commenced without, and shall be carried out in accordance with, a site-specific professional geotechnical assessment acceptable to the Subdivision or Development Authority:
 - (i) excavation related to the construction, repair, or alteration of a building structure or Water Retaining Structure, other than the installation, connection, repair maintenance or replacement of a public utility;
 - (ii) the construction or material alteration of a detached dwelling unit or garage; and
 - (iii) the construction or material alteration of an accessory building or structure with a floor area of 10.0m² or more and a height of 2.4m or more.

4. Application of the Fundamental Land Use Criteria

The Subdivision or Development Authority must adhere to, and has no discretion to vary, the fundamental land use criteria set out in Section 3 of this District, which criteria are:

- (a) subject to exception only as expressly set out in Section 5 of this District; and not subject to variance or exception pursuant to Sections 654(2), 680(2), or 687(3)(d) of the Municipal Government Act.

5. Exceptions to the Fundamental Land Use Criteria

- (a) Notwithstanding the fundamental use criteria set out in Section 3(a) of this District, the following Developments may be considered for approval by the Subdivision or Development Authority within the Restricted Development Area

and shall be carried out pursuant to the terms and conditions of a subdivision approval or Development permit:

- (i) The erection of warning signs respecting escarpment risk or safety;
- (ii) The installation, connection, repair, maintenance or replacement of a public utility;
- (iii) The material repair or minor alteration of the following, if constructed prior to September 15, 2014:
 - (A) a detached dwelling unit (which is connected to all City utility services) or associated retaining wall; and
 - (B) a Water Retaining Structure, if located at least 50m from the Crest of the escarpment and subject to installation of an acceptable leak detection system and provided that there is no discharge toward the escarpment, slope or adjacent park or reserve areas.
- (iv) the stripping and/or grading, placement of fill, material alteration of vegetation, or existing or natural surface drainage patterns related to the demolition and/or relocation of a detached dwelling unit or Water Retaining Structure constructed prior to September 15, 2014 and pursuant to plans prepared by a Professional Engineer.
- (b) The Subdivision or Development Authority may consider lot line adjustment or consolidation of title for the purpose of enlarging the potential building area while not increasing the number of registered lots.

These exceptions remain subject to all other provisions of this District.

6. DC 32 Discretionary Uses

(a) Discretionary Uses

The Development Officer is the Development Authority for the following uses:

- (i) Detached Dwelling Unit (which is connected to all City utility services) located at least 10.0 m from the RDA;
- (ii) ¹Deleted;
- (iii) Home Occupation which will generate additional traffic subject to section 4.7(8);

¹ 3357/S-2019

- (iv) Accessory Building located at least 10.0m from the RDA;
- (v) all signs, including warning signs respecting escarpment risks or safety;
- (vi) Temporary Building, and;
- (vii) ¹Secondary Suite, subject to section 4.7(9);

The Municipal Planning Commission is the Development Authority for the following uses:

- (viii) Detached Dwelling Unit (which is connected to all City utility services) located less than 10.0m from the RDA;
- (ix) Accessory Building located less than 10.0m from the RDA;
- (x) installation, connection, repair, maintenance or replacement of a public utility, pursuant to plans prepared by a Professional Engineer;
- (xi) Water Retaining Structure located beyond the Restricted Development Area and at least 50m from the Crest of the escarpment;
- (xii) water line or underground sprinkler or irrigation system located beyond the Restricted Development Area and at least 50m from the Crest of the escarpment, constructed in accordance with a design prepared by a Professional Engineer and installed under the supervision of a Professional Engineer;
- (xiii) parking or storage of not more than one commercial vehicle or recreational vehicle or trailer of gross vehicle or trailer any of which may not have a weight rating exceeding 4,500kg;
- (xiv) stripping and/or grading, placement of fill, material alteration of vegetation or existing surface drainage patterns, pursuant to plans prepared by a Professional Engineer.

(b) Prohibited Uses - without limiting the foregoing, the following uses are prohibited:

- (i) wetting or watering of the ground surface or subsurface or vegetation (including but not limited to, lawn) that may be detrimental or destabilizing to the lands, neighbouring lands, the escarpment or slopes, or adjacent park or reserve areas; and

¹ 3357/L-2020

- (ii) tree removal from the ground surface or subsurface (including but not limited to, deadfall removal) that may be detrimental or destabilizing to the lands, neighbouring lands, the escarpment or slopes, or adjacent park or reserve areas.

7. Development Regulations

Respecting this District and lands therein:

- (a) the provisions of this District shall govern in the event of a conflict or inconsistency between this District and any other provisions of this Land Use Bylaw;
- (b) the Subdivision or Development Authority shall not be bound by the regulations set out in Parts 2 and 3 of the Land Use Bylaw;
- (c) ¹Part 4 of the Land Use Bylaw does not apply to this District; except for provisions 4.7(8) (Home Occupations), 4.7(4) (Objects Prohibited), and 4.7(9) (Secondary Suite Use Provisions and Development Regulations);
- (d) any site grading shall be designed to drain surface water away from the escarpment;
- (e) any Water Retaining Structures, water lines, underground sprinklers or irrigation systems shall be installed with an acceptable leak detection system and monitored and maintained by the landowner to ensure proper operation and no unauthorized leakage, and shall be directed away from the escarpment, slope, or adjacent park or reserve areas;
- (f) all discharge from roof leaders and weeping tile systems shall be directed away from the escarpment or to professionally engineering drainage pathways (e.g. asphalt or half culvert drop structures);
- (g) new vegetation should be selected from native types with deep root systems that can grow with a minimum of watering;
- (h) upon connection to City utility services, private services (e.g. septic system, groundwater well, associated water lines) shall be removed, abandoned, closed-in and reclaimed, as applicable, pursuant to the City's Utility Bylaw;
- (i) where existing residence are relocated, former basements located within the Restricted Development Area shall be filled pursuant to the design and supervision of a Professional Engineer;
- (j) Lot depth minimum of 40.0m;
- (k) Frontage minimum of 22.0m; and
- (l) in considering a Subdivision or Development Permit application, the Subdivision or Development Authority shall have discretion (subject to the land use constraints set out in Sections 3, 5 and 6 of this District), to determine the Site Plan, parking

¹ 3357/S-2019, 3357/L-2020

requirements, architectural treatment of buildings, and the relationship between buildings, structures and open space. Without limiting the foregoing, the following regulations shall apply to the location of Buildings unless varied by the Subdivision or Development Authority:

Site coverage maximum of 40% (including Garage and Accessory Buildings);

Front Yard setback minimum of 6.0m;

Side Yard setback minimum of 1.5m; and

Rear Yard minimum setback of 7.5m (except as required by the land use constraints of this District – e.g. subject to site specific geotechnical, the Restricted Development Area).

8. Approving Authority

Respecting this District and all lands therein, all applications for subdivision approval or Development permit shall be evaluated on their merits by the Subdivision or Development Authority.

Without limiting the foregoing, but subject to the land use constraints set out in Sections 3, 5 and 6 of this District, the Subdivision or Development Authority may, as regards any application for subdivision approval or Development permit, impose conditions of approval or requirements:

- (a) that the Subdivision or Development Authority determines are reasonable, having considered:
 - (i) the purposes and other provisions of this District;
 - (ii) the uniqueness of the lands (e.g. the relevant environmental or man-made hazards or risks, and existing Developments); and
 - (iii) that the suitable scale of residential Development should be reviewed on a case-by-case basis and considering site-specific geotechnical recommendations.
- (b) including, but not limited to the following conditions:
 - (i) the provision of a real property report during preliminary construction indicating that the structure is located beyond the Restricted Development Area, and/or more than 50m from the Crest and/or in accordance with any accepted Report and/or Site Plan;
 - (ii) that the applicant meet or exceed the recommendations of any applicable Report and the requirements of any restrictive covenant registered against the lands respecting maintenance of slope stability;
 - (iii) the provision of emergency access;

- (iv) the provision of ongoing monitoring programs and related access to the land for such monitoring (for example, slope monitoring and/or subsurface exploration data derived from appropriate geotechnical drilling);
- (v) increased site-specific setbacks for fire protection and mitigation due to elevated risks of fire;
- (vi) a post construction certificate from a relevant professional (e.g. Professional Engineer, Registered Architect, or an Alberta Land Surveyor) as determined by the Subdivision or Development Authority, confirming any or all of the following:
 - (A) that the Development has been located beyond the Restricted Development Area and/or located and constructed in accordance with any Site Plan and/or Report accepted by the Subdivision or Development Authority;
 - (B) compliance with an accepted professional lot grading plan; and
 - (C) that proposed and existing grades have been professionally certified.
- (vii) the connection of roof leaders (downspouts) and house weeping tiles (foundation service) into storm systems, if available;
- (viii) no direction of stormwater or overland drainage onto neighbouring properties (including but not limited to adjacent park, reserve land, escarpment, or slopes);
- (ix) the provision of erosion and sediment control measures during construction;
- (x) that buildings or structures have non-combustible exterior finishes or acceptable fire retardant material treatment;
- (xi) conditions to minimize erosion and to stabilize soil conditions;
- (xii) that any Development shall be designed and constructed using materials, processes, and/or techniques intended to minimize slope risks or instability;
- (xiii) that the applicant and any current or future user or owner of the lands shall enter into an Indemnity Agreement with the City respecting environmental risks including, but not limited, slope instability; and
- (xiv) that the applicant enter into and comply with an agreement with the City respecting those matters set out in Sections 650, 655 and 651 of the Municipal Government Act and/or described in Section 2.10 of the Land Use Bylaw (a Development agreement).

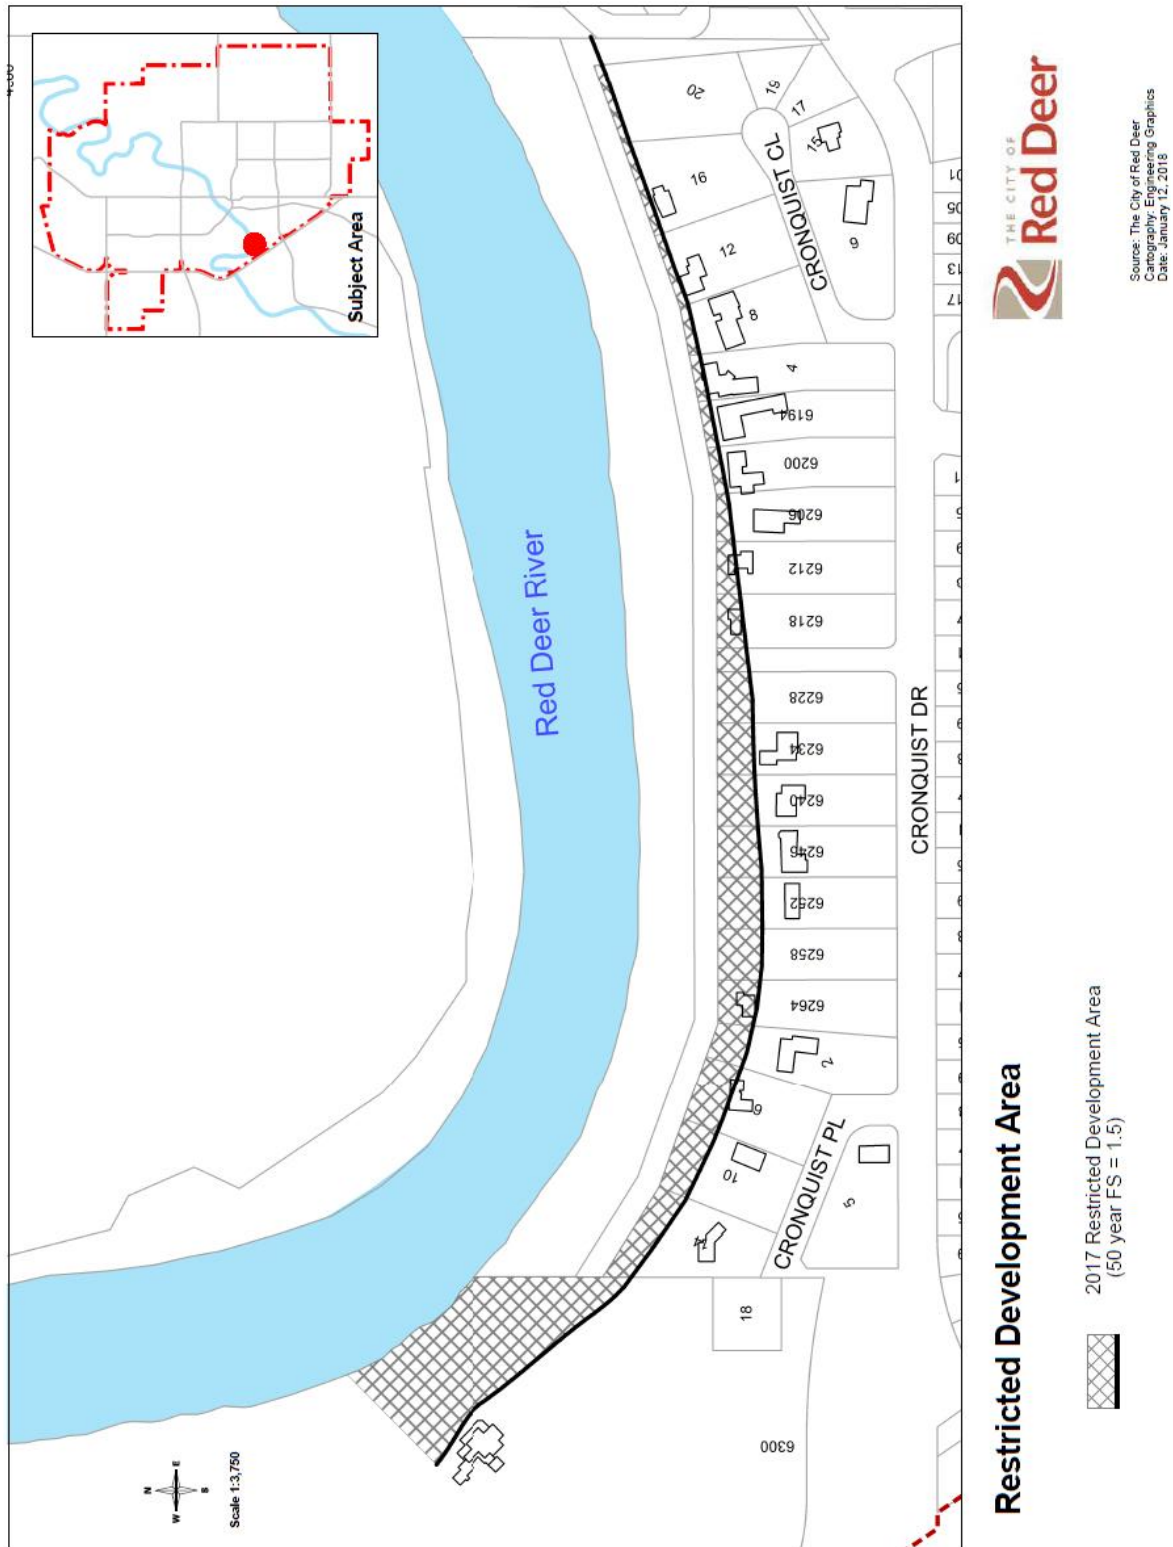

9. Development Permits

Except as expressly stated otherwise within this District, a Development permit is required for any and all Development within this District.

Notwithstanding the foregoing, and provided that the Development otherwise complies with the provisions of this District, no Development permit is required for the following Development:

- (a) those Developments set out in “Application of the Land Use Bylaw” Section 1.2(2), (e), (f), (g), and (j); and
- (b) up to 5 flow collectors (rain barrels) attached to authorized roof leaders, each collector having storage capacity of less than 420 litres.

8.22 Exceptions Respecting Land Use

1. ¹General Regulations

- (a) An exception to the uses and/or regulations of a District or this Bylaw may be approved by Council on a site specific basis when a proposed Development, because of its unique characteristics or innovative ideas or because of unusual site constraints, can only proceed if an exception to the provisions of this Bylaw is approved.
- (b) ²DELETED
- (c) ³An applicant for an exception to the uses or regulations of a District must, as part of the application for the exception, submit a written statement indicating why, in the applicant's opinion:
 - (i) an exception is necessary and the proposed Development cannot proceed without an exception;
 - (ii) redistricting to another District cannot achieve the same result, within or without relaxations of this Bylaw; or
 - (iii) the exception cannot be addressed by conditions imposed by the Subdivision or Development Authorities.

2. Areas Specifically Designated for a Particular Use

- (a) In addition to the list of discretionary uses set out in the applicable land use district, those sites shall have the following additional discretionary uses and the ⁴Development Authority shall determine the floor area, yard requirements, building height, parking and loading requirements:

currently owned by EVRAZ INC. NA CANADA, located at 27251 Township Road 391 (short legal: NW ¼ Sec 3-39-27-W4, Linc 0018975856): any expansion of the use or development shall require the submission of a detailed noise impact study by the proponent, prepared by a qualified consultant, to determine what on-site mitigation measures are required to avoid excess sound emissions to the satisfaction of the Development Officer.

¹(dd) Notwithstanding Section 5.6 of this Land Use Bylaw, on Lot 1, Block 2, Plan 932 1800 (2506 19 Street) development requires approval by the Development Authority and is subject to the following development regulations/standards:

(i) Regulations:

- (1) Site Coverage: Maximum of 25%
- (2) Building Height: Maximum of 2 storeys (maximum 9.0m)
- (3) Landscaped Area Minimum: 20% of site area
- (4) Parking Spaces: Subject to sections 3.1 & 3.2
- (5) Design Criteria: Subject to section 8.22(1)(dd)(iii)

(ii) Approving Authority

- (1) The Development Authority is the Approving Authority for all uses and development on this property. In exercising its approval powers, the Development Authority shall ensure that development, in addition to the above Regulations, also complies with any Design Criteria. Variances to the Regulations or Design Criteria will not be considered.
- (2) All development standards, site plan, site access, the relationship between buildings, structures and open space, the architectural treatment of any building, the provision and architecture of landscaped areas, and the parking layout shall be subject to approval by the Approving Authority.

(iii) Design Criteria

- (1) The Design Criteria within this site exception shall prevail over the C5 District Design Criteria
- (2) The physical relationship of building with the street is critical in establishing the overall character of the area. The Building shall have a strong presence along its public street fronting property line and an inviting interface with the public realm's sidewalk and street
- (3) Developments shall create variety, character, comfortable scale and visual interest by incorporating a variety of building styles.

¹ 3357/HH-2016

- (4) The Principles of Crime Prevention through Environmental Design (CPTED) shall be applied to all development.
- (5) High quality hard and soft landscaping elements shall be provided including trees and shrubs that add value throughout all seasons.
- (6) Developments shall be designed with green technologies and materials that reduce energy, waste and conserve water (i.e. green roofs, solar energy systems, district energy).
- (7) Building fronting collector streets shall have minimal front yard setbacks unless additional space is required for such things as an eating patio, major private art display, water feature or other amenity.
- (8) The rear yard setbacks shall be flexible and as required to allow for site access, on-site parking, loading and servicing. The west yard setback to building to be a minimum of 23.0m, with the exception of the southwest corner of the site permitting a minimum setback of 7.0m to building face.
- (9) Developers shall create opportunities for pedestrian linkages to the east and south only.
- (10) Street elevations of buildings located on corner properties shall have equal sidewalk interface and architectural corner features and high quality elevation treatments along each side.
- (11) Building walls facing a public street shall be articulated at approximately 6-8 metre intervals containing varied design elements such as entrances, windows, vertical accents, setbacks, canopies and signage, projections, and roof lines.
- (12) All businesses or stores shall have their own clearly identifiable street level entry.
- (13) All commercial ground floor elevations facing a street shall contain un-tinted glass windows.
- (14) Underground parking is highly encouraged. All surface parking shall be paved and located behind the building(s) in carefully designed, landscaped lots with defined, integrated pedestrian connections to public sidewalks and trails. No surface parking shall be allowed between a street and a building.
- (15) To assist in establishing a sustainable urban environment, internal private laneways are encouraged as part of the

design to allow servicing, access to parking, as well as key pedestrian linkages.

- (16) Signage shall comply with the signage requirements of the Land Use Bylaw for the C1 District.
- (17) Illuminated signage mounted on buildings shall not be permitted, with the exception of a fuel sales site. Signage may be accentuated by lighting fixtures projecting light either back at the building or down towards the ground.
- (18) A 2.4m high solid opaque fence is required along the entire west property line.
- (19) Garbage collections shall be underground waste disposal system or equal. Garbage collection bins and waste disposal that is 100% above ground shall not be permitted.
- (20) The majority of the tree buffer along the northwest boundary be retained.
- (21) The location of fuel sales and accessory car wash are located adjacent to the arterial and collector roadways away from the single family residential to the west.

¹(ee) On those sites listed below, a Supervised Consumption Services may be considered as a Discretionary Use with City Council as the designated Development Authority:
