

Plant Rebate Qualifying List

The plants on this list are Hardiness Zone 3 or below, perennial, drought tolerant, adaptive to various climate or soil conditions, and/or low maintenance. Please consult this list prior to making your plant purchase and applying for a rebate. It is recommended that prior to purchasing you conduct research about the perennial/shrub/tree to determine what locations and conditions are best suitable for optimal growth. Information on growing conditions can be found within the plant list, a description of key terms used can be found in the table below.

Key terms

Full sun	More than 6 hours of direct sun per day	Dry soil	Soil is dry to the touch, soil cannot be shaped into a ball, can withstand drought like conditions
Part shade	4 to 6 hours of sun per day, mostly before midday	Average soil	Soil is damp 1 to 2 inches below the surface, soil can be shaped into a ball but easily breaks apart, can withstand average watering conditions of 1 inch of water per week
Full shade	Less than 4 hours of direct sun per day	Moist soil	Soil looks and feels damp, soil can be easily shaped into a ball, needs frequent watering

Perennials

Botanical Name	Common Name	Growing Conditions
<i>Achillea millefolium</i>	Common Yarrow	Full sun; dry to average soil
<i>Alchemilla mollis</i>	Lady's Mantle	Full sun or full shade; dry and moist soil
<i>Aquilegia</i>	Columbine	Full sun or full shade; moist soil
<i>Aquilegia 'Crimson Star'</i>	Crimson Star Columbine	Full sun or full shade; average to moist soil
<i>Arabis caucasica</i>	Rock Cress	Full to part shade; dry to average soil

<i>Armeria maritima</i>	Various sea thrift species	Full to part shade; dry to average soil
<i>Artemisia</i>	Various artemisia species	Full to part shade; dry to average soil
<i>Asclepias sp.</i>	Various milkweed species	Full to part shade; average to moist soil
<i>Aster sp.</i>	Various asters species	Full to part shade; dry to average soil
<i>Bergenia cordifolia</i>	Common bergenia	Part shade to full shade; dry to average soil
<i>Calylophus serrulatus</i>	Yellow Sundrops	Full sun; dry to average soil
<i>Campanula rotundifolia</i>	Harebell	Full to part shade; dry to average soil
<i>Cerastium tomentosum</i>	Snow in summer	Full sun; dry to average soil
<i>Coreopsis sp.</i>	Various coreopsis species	Full to part shade; dry to average soil
<i>Dalea purpurea</i>	Purple Prairie Clover	Full sun; dry to average soil
<i>Dodecatheon meadia</i>	Shooting Star	Part shade; average to moist soil
<i>Echinacea sp.</i>	Various coneflower species	Full sun; dry to average soil
<i>Echinops</i>	Globe Thistle	Full sun; dry to average soil
<i>Erigeron speciosus</i>	Showy Fleabane	Full sun; dry to moist soil
<i>Filipendula ulmaria</i>	Meadowsweet	Full to part shade; average to moist soil
<i>Gaillardia sp.</i>	Various blanket flower species	Full to part shade; dry to average soil
<i>Galium boreale</i>	Northern Bedstraw	Full sun to full share; average to moist soil
<i>Geum triflorum</i>	Prairie Smoke	Full to part shade; dry to average soil
<i>Helenium autumnale</i>	Common sneezeweed	Full sun; average to moist soil
<i>Heliopsis helianthoides</i>	False Sunflower	Full to part shade; dry to average soil
<i>Hemerocallis sp.</i>	Various daylily species	Full to part shade; average to moist soil
<i>Hyssopus officinalis</i>	Hyssop	Part shade; dry to average soil
<i>Liatris spicata</i>	Blazing Star	Full sun; average to moist soil
<i>Limonium latifolium</i>	Sea Lavender	Full sun; dry to average soil
<i>Linum lewisii</i>	Lewis (Blue) Flax	Full sun; dry to average soil
<i>Matteuccia struthiopetris</i>	Ostrich fern	Part to full shade; average to moist soil
<i>Monarda sp.</i>	Various bee balm species	Full sun to part shade: dry to average soil
<i>Nepeta x</i>	Catmint	Full sun to part shade: dry to average soil
<i>Opuntia sp.</i>	Various prickly pear cactus species	Full sun; dry to average soil
<i>Penstemon sp.</i>	Various beardtongue species	Full sun to part shade: dry to average soil
<i>Phlox subulata</i>	Moss Phlox	Full sun; dry to average soil
<i>Physostegia virginiana</i>	Obedient Plant	Full sun to part shade: dry to average soil
<i>Rudbeckia hirta</i>	Black-Eyed Susan	Full sun; dry to average soil
<i>Salvia azurea</i>	Sage Blue	Part shade; dry to average soil

<i>Salvia nemorosa</i>	Sage Caramia/Rose Woodland	Full sun; average to moist soil
<i>Saponaria ocymoides</i>	Rock Soapwort	Full sun; dry to average soil
<i>Sedum sp.</i>	Various stonecrop species	Full sun to part shade; dry to average soil
<i>Sempervivum sp.</i>	Various hens and chicks species	Full sun; dry to average soil
<i>Veronica sp.</i>	Vairous speedwell	Full sun to part shade; dry to average soil
<i>Veronicastrum virginicum</i>	Culver's Root	Full to part shade; average to moist soil
<i>Yucca glauca</i>	Yucca	Full sun; dry to average soil

Grasses

Botanical Name	Common Name	Growing Conditions
<i>Calamagrostis acutiflora</i> 'Karl Foerster'	Karl Foerster Grass	Full to part shade; dry to average soil
<i>Calamagrostis arundinacea</i>	Overdam Grass	Full to part sun; average to moist soil
<i>Deschampsia caespitosa</i>	Tufted Hair Grass	Part shade; dry to average soil
<i>Festuca ovina</i>	Sheep's Fescue	Full to part shade; dry to average soil
<i>Helictotrichon sempervirens</i>	Blue oat grass	Full sun; dry to average soil
<i>Hierochloe odorata</i>	Sweetgrass	Full sun; average to moist soil
<i>Panicum virgatum</i>	Switchgrass	Full to part shade; dry to moist soil
<i>Schizachyrium scoparium</i>	Little Bluestem	Full to part shade; dry to average soil
<i>Sorghastrum nutans</i>	Indian Grass	Full sun to full shade; dry to moist soil
<i>Sporobolus heterolepis</i>	Prairie Dropseed	Full sun; dry to average soil

Deciduous Shrubs

Botanical Name	Common Name	Growing Conditions
<i>Alnus viridis</i>	Green Alder	Full to part shade; average to moist soil
<i>Amelanchier alnifolia</i>	Saskatoon Berry	Full sun to full shade; dry to moist soil
<i>Arctostaphylos uva-ursi</i>	Common Bearberry	Full sun to full shade; dry to most soil
<i>Artemisia cana</i>	Sagebrush	Full sun; dry to average soil
<i>Betula nana</i>	Dwarf Birch	Full sun; average to moist soil
<i>Betula platyphylla</i> 'Jefpark'	Parkland Birch	Full sun; average to moist soil
<i>Caragana pygmaea</i>	Pygmy Caragana	Full sun; dry to average soil

<i>Cornus alba 'Aurea'</i>	Dogwood Varieties	Full sun to part shade; dry to average soil
<i>Cornus alba 'Sibirica'</i>	Siberian Dogwood	Full sun to part shade; dry to average soil
<i>Cornus sericea</i>	Red Osier Dogwood	Part shade; average to moist soil
<i>Corylus cornuta</i>	Beaked Hazelnut	Full sun to part shade; average to moist soil
<i>Elaeagnus commutata</i>	Silverberry / Wolf Willow	Full sun to part shade; dry to average soil
<i>Lonicera caerulea</i>	Haskap	Full sun to part shade; dry to average soil
<i>Lonicera dioica</i>	Twining Honeysuckle	Part shade to full shade; average to moist soil
<i>Lonicera involucrata</i>	Bracted/Swamp Honeysuckle	Full sun to part shade; average to moist soil
<i>Lonicera maximowiczii</i>	Sakhalin Honeysuckle	Full sun to part shade; average to moist soil
<i>Physocarpus opulifolius</i>	Common Ninebark	Full sun to part shade; dry to moist soil
<i>Physocarpus opulifolius 'Dart's Golden'</i>	Dart's Golden Ninebark	Full sun to part shade; dry to average soil
<i>Physocarpus opulifolius 'Luteus'</i>	Golden Ninebark	Full sun to part shade; dry to average soil
<i>Prunus cerasus</i>	Sour Cherry	Full sun; average to moist soil
<i>Prunus pensylvanica</i>	Pin Cherry	Full sun; average to moist soil
<i>Prunus tomentosa</i>	Nanking cherry	Full sun; average to moist soil
<i>Prunus triloba</i>	Flowering Plum	Full sun; average to moist soil
<i>Rhus glabra</i>	Smooth Sumac	Full sun to full shade; dry to average soil
<i>Ribes alpinum</i>	Alpine Currant	Full sun to part shade; dry to average soil
<i>Ribes americanum</i>	Black Currant	Full sun to part shade; average to moist
<i>Ribes aureum</i>	Golden-Flowering Currant	Full sun to part shade; dry to average soil
<i>Ribes lacustre</i>	Black Gooseberry/Prickly Currant	Full sun to part shade; average to moist soil
<i>Ribes oxycanthoides</i>	Canadian Gooseberry	Full sun to part shade; dry to average soil
<i>Rosa acicularis</i>	Wild Rose/Prickly Rose	Full sun; dry to average soil
<i>Rosa rugosa</i>	Rugosa Rose	Full sun to part shade; dry to average soil
<i>Rosa rugosa 'Hansa'</i>	Hansa Rose	Full sun to part shade; dry to average soil
<i>Rosa virginiana</i>	Virginia Rose	Full sun to part shade; dry to average soil
<i>Rubus idaeus</i>	Red Raspberry	Full sun to full shade; dry to average soil
<i>Salix bebbiana</i>	Beaked Willow/Bebb Willow	Full sun to full shade; average to moist soil
<i>Salix candida</i>	Sageleaf Willow	Full sun to part shade; average to moist soil
<i>Salix discolor</i>	Pussy Willow	Full sun; average to moist soil
<i>Salix exigua</i>	Sandbar Willow Savin	Full sun to part shade; average to moist soil
<i>Salix lutea</i>	Yellow Willow	Full sun; average to moist soil
<i>Salix scouleriana</i>	Scouler's Willow	Full sun to full shade; dry to average soil
<i>Sambucus canadensis</i>	American Elder	Part shade; dry to average soil

<i>Shepherdia argentea</i>	Silver Buffaloberry	Full sun; dry to average soil
<i>Shepherdia Canadensis</i>	Canada Buffaloberry	Full sun to part shade; dry to average soil
<i>Spirea sp.</i>	Various spirea species	Full sun to part shade; dry to average soil
<i>Symphoricarpos albus</i>	Snowberry / Buckbrush	Full sun to part shade; dry to average soil
<i>Viburnum edule</i>	Low bush cranberry	Full sun to full shade; average to moist soil
<i>Viburnum lantana</i>	Wayfaring Tree	Full sun to part shade; dry to average soil
<i>Viburnum lentago</i>	Nannyberry	Full sun to part shade; dry to average soil
<i>Viburnum trilobum</i>	High Bush Cranberry	Full sun to part shade; average to moist soil
<i>Weigela florida</i>	Weigela	Full sun to part shade; dry to average soil

Coniferous Shrubs

Botanical Name	Common Name	Growing Conditions
<i>Juniperus communis</i>	Common Juniper	Full sun; dry to average soil
<i>Juniperous horizontalis</i>	Horizontal Juniper	Full sun to part shade; dry to average soil
<i>Juniperous sabina</i>	Savin Juniper Varieties / Cultivars	Full sun; dry to average soil
<i>Thuja Occidentalis</i>	Globe Cedar	Full to part shade; average to moist soil
<i>Pinus Mugo</i>	Mugo Pine	Full to part shade; average to dry soil
<i>Picea pungens 'Globosa'</i>	Blue Globe Spruce	Full to part shade; dry to moist soil
<i>Picea sp.</i>	Various spruce species	Full to part shade; dry to moist soil
<i>Abies sp.</i>	Various fir species	Full to part shade; average to moist soil

Deciduous Trees

Botanical Name	Common Name	Growing Conditions
<i>Acer ginnala</i>	Amur Maple	Full to part shade; dry to average soil
<i>Acer freemanii</i>	Autumn Blaze Maple	Full to part shade; average to moist soil
<i>Acer rubrum 'Northwood'</i>	Northwood Red Maple	Full sun; average to moist soil
<i>Acer saccharinum 'Silvercloud'</i>	Silver Cloud Maple	Full to part shade; average to moist soil
<i>Aesculus glabra</i>	Ohio Buckeye	Full to part shade; average to moist soil
<i>Alnus incana</i>	River Alder	Full to part shade; average to moist soil
<i>Crataegeus species</i>	Hawthorn	Full to part shade; dry to moist soil

<i>Eleagnus angustifolia</i>	Russian Olive	Full sun; dry to average soil
<i>Fraxinus pennsylvanica</i> 'Nobility'	Nobility White Ash	Full sun; average to moist soil
<i>Fraxinus pennsylvanica</i> 'Patmore'	Patmore Green Ash	Full sun; dry to moist soil
<i>Fraxinus pennsylvanica</i> 'Rugby'	Prairie Spire Ash	Full sun; dry to moist soil
<i>Juniperus horizontalis</i>	Pincherry	Full sun; average to moist soil
<i>Linden sp.</i>	Dropmore Linden Little-Leaf Linden	Full sun; dry to moist soil
<i>Malus sp.</i>	Pink spires Purple spire columnar Starlite	Full sun; average to moist soil
<i>Populus tremula</i> 'Erecta'	Swedish Columnar Aspen	Full sun; dry to moist soil
<i>Populus x canescens</i> 'Tower'	Tower Poplar	Full sun; dry to moist soil
<i>Populus x Jackii</i> 'Northwest'	Northwest Poplar	Full sun; dry to moist soil
<i>Prunus nigra</i> 'Princess Kay'	Princess Kay plum	Full sun; average to moist soil
<i>Prunus x nigrella</i> 'Muckle'	Muckle plum	Full sun; average to moist soil
<i>Quercus macrocarpa</i>	Bur Oak	Full sun; dry to moist soil
<i>Salix alba</i> 'Sericea'	Silver Willow	Full sun; dry to moist soil
<i>Salix discolor</i>	Pussy Willow	Ful to part shade; average to moist soil
<i>Salix pentandra</i>	Laurel-Leaf Willow	Full sun; dry to moist soil
<i>Sorbus americana</i>	Mountain Ash	Full sun to share; dry to moist soil
<i>Syringa reticulata</i>	Japanese Tree Lilac	Full sun; average to moist soil
<i>Tilia americana</i>	American Linden	Full sun; dry to moist soil
<i>Ulmus americana</i>	American Elm	Full sun; dry to moist soil

Coniferous Trees

Botanical Name	Common Name	Growing Conditions
<i>Larix laricina</i>	Tamarack Larch	Full to part shade; average to moist soil
<i>Picea abies</i>	Norway Spruce	Full to part shade; dry to average soil
<i>Picea glauca</i>	White Spruce	Full sun; dry to moist soil
<i>Picea pungens</i>	Colorado Spruce	Full sun; dry to moist soil
<i>Picea pungens</i> 'Glauca'	Colorado Blue Spruce	Full sun; dry to moist soil
<i>Pinus banksiana</i>	Jack Pine	Full sun; dry to average soil

<i>Pinus contorta latifolia</i>	Lodgepole Pine	Full sun; dry to average soil
<i>Pinus ponderosa</i>	Ponderosa Pine	Full sun; dry to average soil
<i>Pinus sylvestris</i>	Scots Pine	Full sun; dry to average soil
<i>Pseudotsuga menziesii</i>	Douglas Fir	Full to part shade; average to moist soil
