Permit Conditions

- Utility Bylaw 3606
 - Governs the use of Private and Public Hydrants in the City of Red Deer.
 - Fees outlined in Schedule B & D will be charged for applicable hydrant use permit, service fees, deposits and water consumption.
 - Payment terms are net thirty (30) days from the date of invoice, subject to a 1.5% late service fee on all unpaid balances.
- Flushing operations
 - Only permitted between 7:00 A.M. and 7:00 P.M., unless otherwise approved by the Utilities Department, weather permitting.
 - All water must be dechlorinated and must comply with the City of Red Deer Engineering and Contract Specifications.
 - All flow should be directed to permeable surfaces to prevent flooding /pooling, when possible.
 - Call Utilities department if flooding occurs and report any plugged catch basin.
 - Erosion control devices are required when there is a potential to cause sediment to enter into the storm and wastewater infrastructure.
- The Contractor is responsible to obtain all other permits required to perform the work. Note: Dewatering Permit not required when a Hydrant permit is issued.
- The Contractor is responsible for following the procedures and may be held liable for damages, theft or repairs to the fire hydrants, meter box, attached infrastructure, bulk water station and have other enforcement action taken against them for not adhering to these procedures.
- Permit is only valid during the dates shown on the permit.
- The fire hydrant(s) and bulk water station listed on the permit may be used to obtain water, between the hours of 7:00 A.M. and 9:00 P.M.
- Failure to comply with these conditions will result in cancellation of the permit.
- Permits will be issued after associated fees and previous years fees are paid.
- Permit will be issued within 2 to 5 business days of application being submitted.

Call Utilities Department at 403-342-8750 if there are any questions
